Lovely baby was born on Christmas Day
Lying on the manger hearing symphony
Shepherds watched their flocks by night
Angels praised the Lord on high
The prince of peace on earth

When I was in despair and desperate to
withdraw

You came searching at the corner I concealed
Broadened me the field of view
Fed me the grain of meal
Your love and your care that I knew

You're the one only one

You're the light brightest star

You're my destination ever more

You'll be right here when I fall even though
I never call

You're the greatest, highest mountain which
depends on

**When I return to the pasture on the hill
Pure and fresh air warmly fills my soul
You're the healing of the ill
You're the shepherd through the field
You're the everlasting life I seek**

**When I was in despair and desperate to withdraw
You came searching at the corner I concealed
Broadened me the field of view
Fed me the grain of meal
Your love and your care that I knew**

**You're the one only one
You're the light brightest star
You're my destination ever more
You'll be right here when I fall even though I never call
You're the greatest, highest mountain which depends on**

**When I return to the pasture on the hill
Pure and fresh air warmly fills my soul
You're the healing of the ill
You're the shepherd through the field
You're the everlasting life I seek**

**You're the healing of the ill
You're the shepherd through the field
You're the everlasting life I seek**
